

Installation instruction :

Open google and install git , then signin , then open githun and repo and create folder assignment3 , and create file , index.html , script.js , style.css and REAME.md

Uses command:

The screenshot shows a Visual Studio Code editor with a terminal window at the bottom. The terminal displays the following commands and output:

```
CHANDIPRESKTOP-PULBDF HINGWJ2 /d/MasaiSchool/masai school/unit 1/GitRepo (master)
$ git config user_email pawan.bor214@gmail.com
$ git config user_name "Pawan Bor214"
$ cd Assignment3/
$ git add index.html
$ git commit -m "added new file"
[main (root-commit) 8b4f711] added new file
1 file changed, 14 insertions(+)
create mode 100644 index.html
$ git push origin main
fatal: unable to access 'https://github.com/pawanyadav214/Assignment3.git/': Could not resolve host: github.com
```

The file explorer on the left shows the project structure:

- masai school/unit 1/GitRepo
- Assignment3
 - index.html
 - script.js
 - style.css
 - README.md
